Introduction

Who are we targeting?

How bad is the situation?

What do we want to accomplish?

What do we need?

How the idea
came about

We felt a need to some how contribute
to the lives of the less fortunate

We want to make an impact however we
can

Living our entire lives just for ourselves
seemed like an empty and callous
endeavor

A small group of us brainstormed on how
we could make an impact and came up
with this

Eventually we roped in the rest of the
class

Mission:

Being a Gift to the world around us

Who are we targeting?

Bole

A 2 (two) hour drive away from Wa.

- During the raining season the situation is even worse
- Even attempts to trade their natural resources are difficult with their lack of schooling on topics such as business
- Every little bit of help will make a huge difference

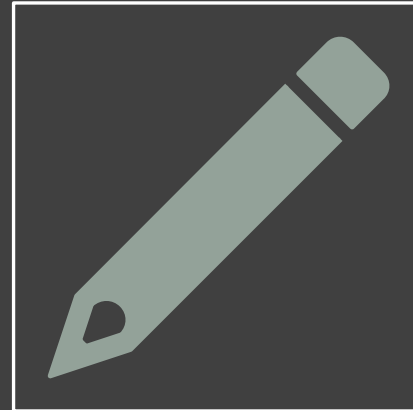

How bad is the situation?

What Do we need?

MONEY

To buy common stationery: Books,
Pens, Pencils etc.

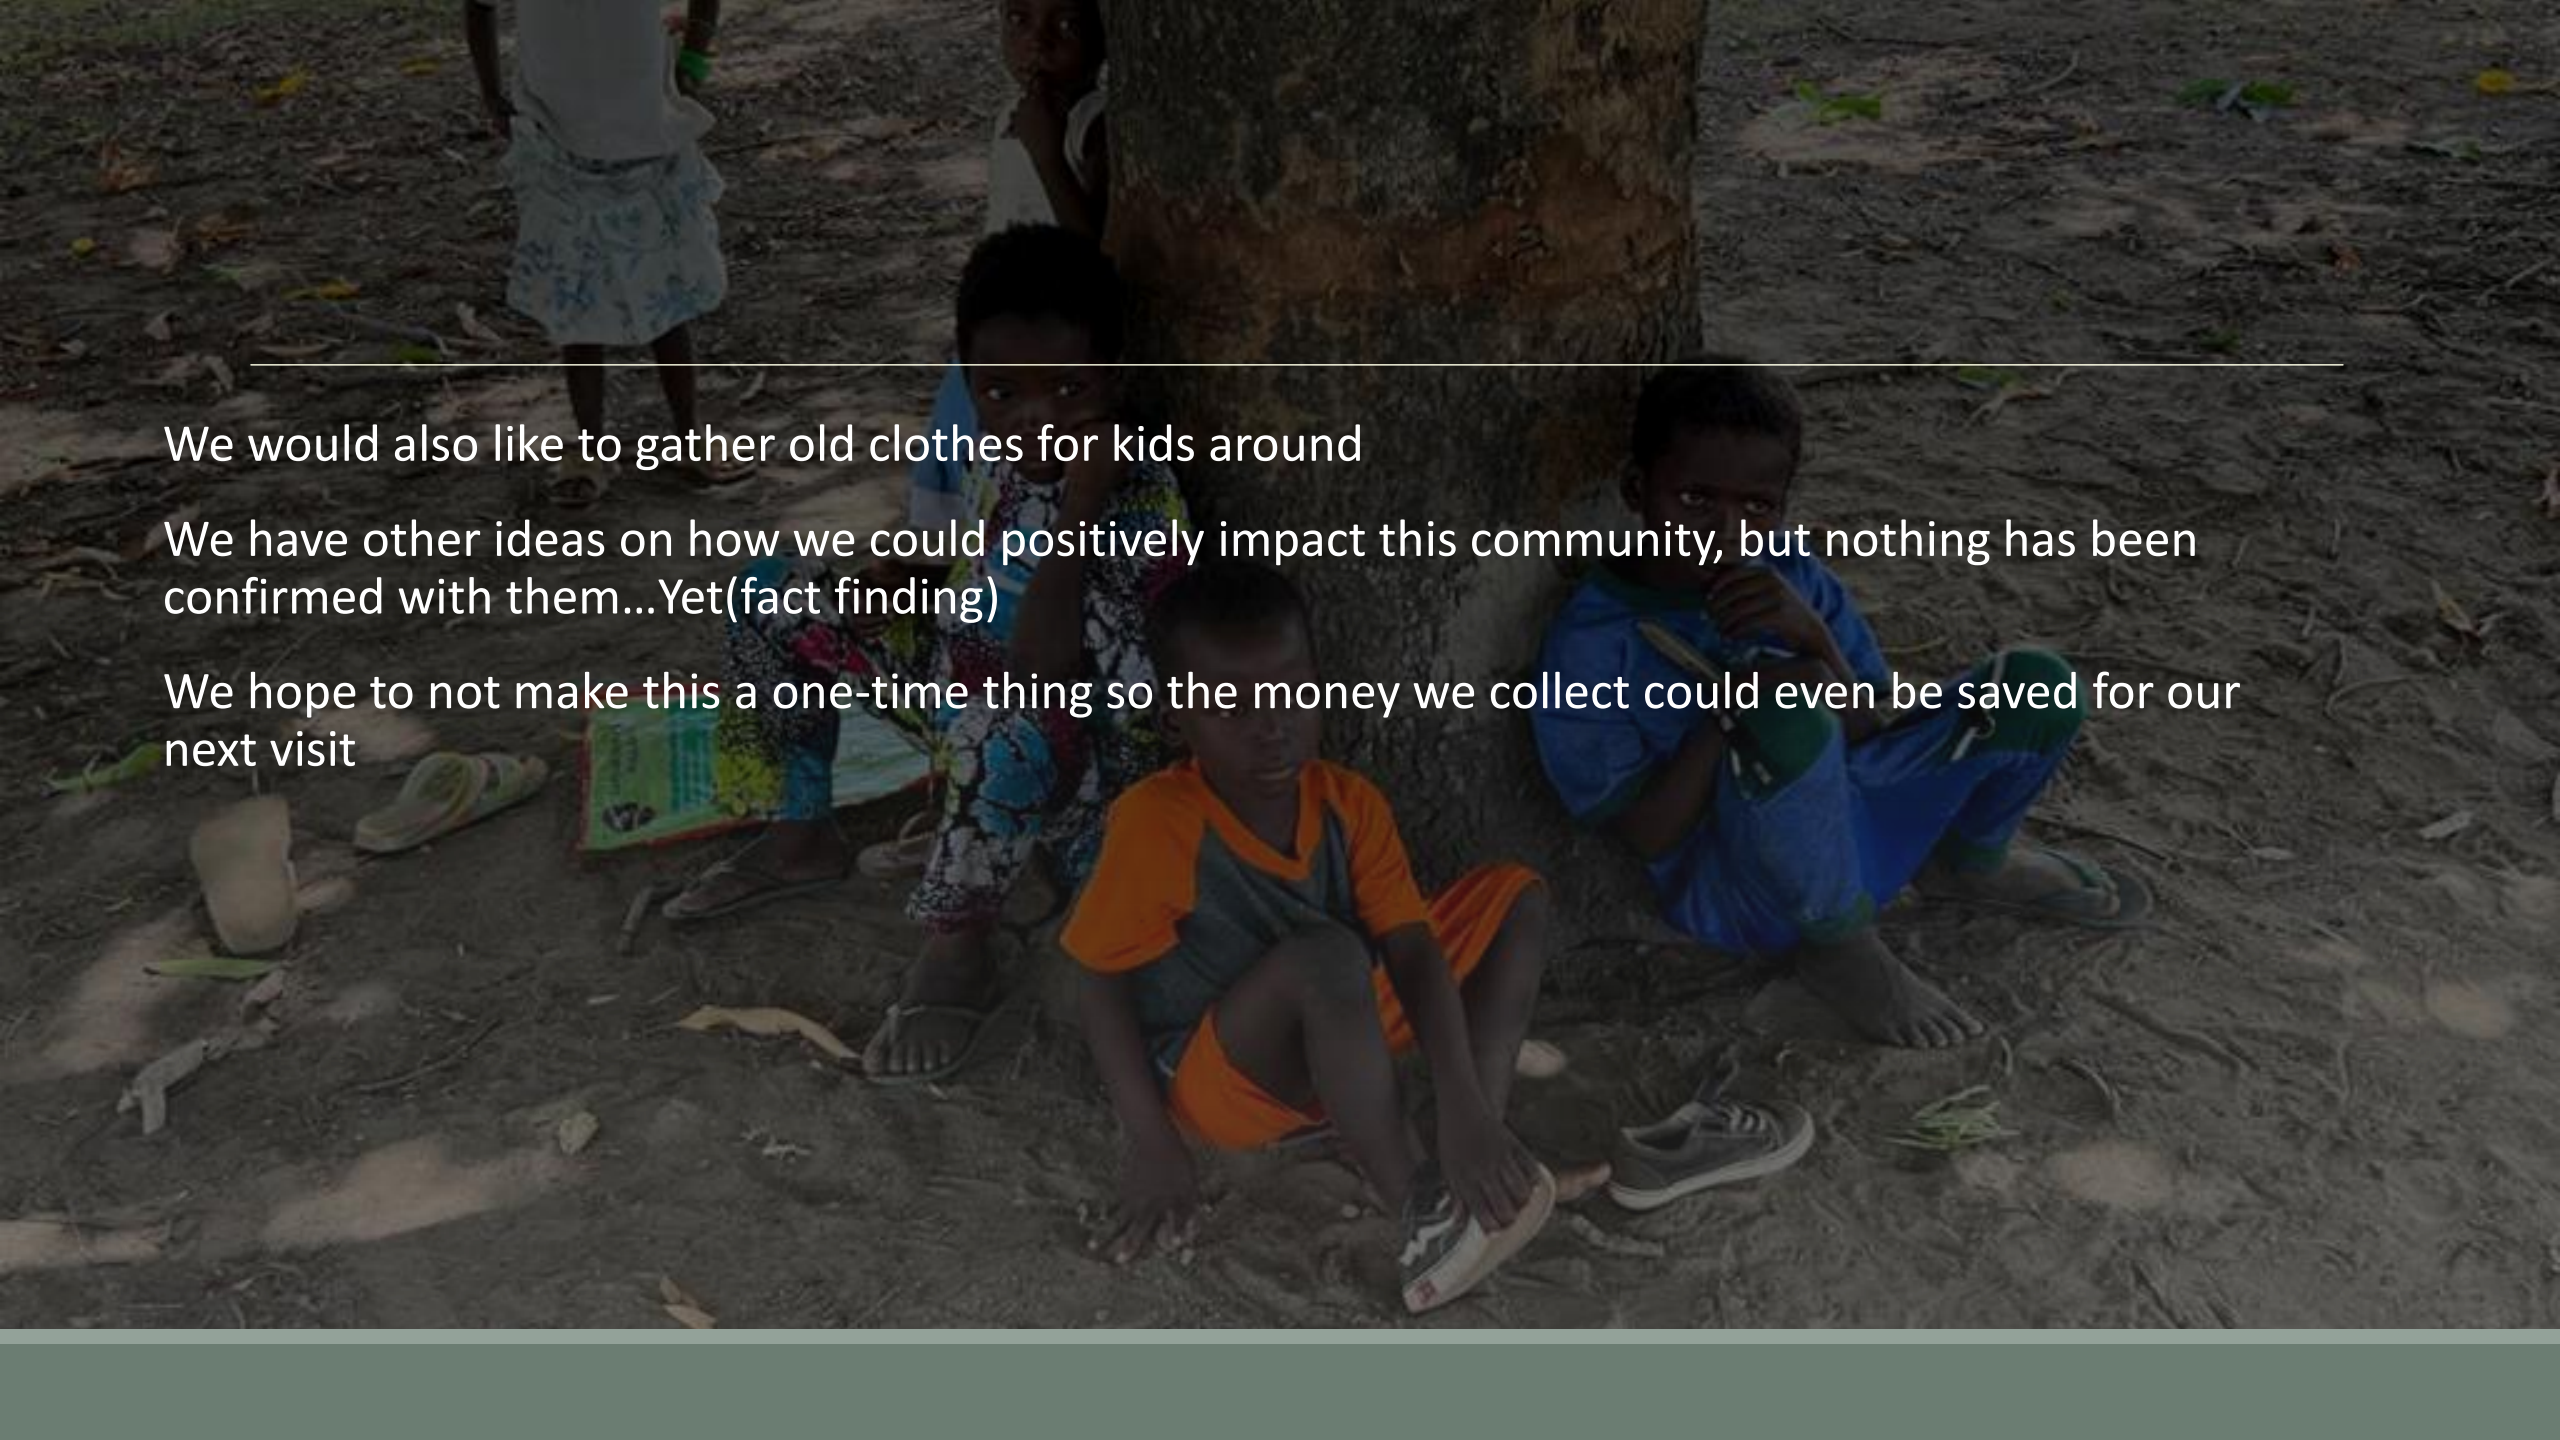

Buildings

Furniture

FOR ABOUT 220 STUDENTS

A photograph of several children sitting on the ground under a large tree. One child in the foreground is wearing an orange shirt and shorts, another is in a blue shirt and pants, and a third is in a patterned shirt. A fourth child is standing in the background wearing a white shirt and a patterned skirt. The ground is dirt and there are some scattered leaves and a small cup on the left.

We would also like to gather old clothes for kids around

We have other ideas on how we could positively impact this community, but nothing has been confirmed with them...Yet(fact finding)

We hope to not make this a one-time thing so the money we collect could even be saved for our next visit

Thank You For Your Time
